

# How to upgrade your Parent Portal Account... in just a few steps.

These steps will help you upgrade your Parent Portal account to a Bark Premium account (the Bark App) to monitor your child's personal devices and email and social media accounts. With the partnership between Bark and Valor you will also receive 20% off your upgrades.

1. Log into your account at Bark.us and click the upgrade button at the bottom of the page.

2. Click the "Start my free 7-day trial" option (from either place on the page).

3. Choose your coverage, billing frequency, and if you would like to add on a Bark Home.

3.1. There are two plan options available. The first option is **Bark Premium** (the default option), and the second option is **Bark Jr**.

**Bark Premium:** Bark's award-winning monitoring tool scans and analyzes your children's texts, photos, videos, social media, and more. We alert you if we detect self-harm, violence, predators, sexual content, or other concerning issues so that you can have important conversations with your child ([learn more](#)).

**Bark Jr:** Bark's screen time and web filtering features block or allow access to apps and sites ([learn more](#)).

If you would like to choose Bark Jr, choose the “Other coverage options” button.

## 1 Confirm coverage

Most popular  
 **Bark Premium**

- ✓ Advanced monitoring of text messages, emails, and 30+ social media platforms
- ✓ Screen time management
- ✓ Customizable app/web filtering
